Sign Locking

- Spring-loaded auto lock

Available Options

- Additional solar panels & batteries
- Custom paint colors
- Extended warranty

Removable Tongue - Auto Lock Display

Trailer Construction & Materials

We are an ISO 9001:2000 certified company. We use exacting standards to develop, engineer and manufacture every product. The quality of materials and dedicated craftsmanship of our trailers give you superior durability, lower total cost of ownership and a better return on investment.

Key features:

- Heavy-duty, Grade B, structural steel tubing
- Steel tubing size: 3" x 2" x 3/16"
- MIG welds
- Highway Safety Orange powder coat finish
- Fenders: Bolt-on, heavy-duty, 10-gauge, steel with non-slip treads
- Torsion axle
- Removable tongue
- Hand-winch mast

Fits tight spots, easy to set-up, durable

The ADDCO ArrowBoard has a narrow footprint making it perfect for use on shoulders or areas where there is little room to maneuver. A spring-loaded auto lock holds the display securely in place whether it is in use or being transported. The heavy-duty steel frame has a powder coat finish to provide long-wearing durability.

Key features:

- Spring-loaded auto lock
- Removable tongue
- Zinc-plated sliding stabilizers and tongue

Specifications

ArrowBoard

CONFIGURATION - AB15 or AB-25
